Mini Chef

This food art session is one of our all-time favourite! Our Mini Chef series offer not only a hands-on cooking experience but also a great way for children to connect their taste buds and language learning. In addition, our native speaking teachers will teach our students all about the foods and ingredients to make each lesson even more enjoyable.

Mini Dream Job

Every child has a dream job, what is your child's? Let's help them to explore this Summer with various occupation fun! Your child will be able to dress-up and work in their "dream job" through a series of stories, games and songs. There's no better way to help them build the connection and interest in Mandarin than "working" as what they like best!

Mini Artist

Let's combine creativity with Mandarin learning! Language and art are a great complement and assist to each other. When a concept is not clear in its written form, we can use our creativity to help the children comprehend and learn. Children adore our Arts & Craft program to create their unique masterpieces while learning Mandarin with our native speaking teachers!

Chinese Musical Theatre

Most students learning Chinese will learn Tang Dynasty poems 唐诗 (tángshī) at school, and there's no better way to introduce it to them than with enjoyable music and movement! We select the most well-known Tangshi for singalong, not only to help them to understand the poem's basic meaning and build their confidence in performing, but also learn various complimenting musical movements - all actions in Mandarin!

Mini Travellers

This Summer, lets board the Mini Mandarins Airline and travel to various countries around the world! What is there to eat Japan, to see in USA or who are the Eskimos in Iceland? We will take you on a journey to a different country each workshop to learn about their culture, foods and fun facts - all aboard!
